All my doubts will vanish this night  
With the arrival of the master of the Darkness and the  
Light  
With the mournful wolves howl beneath the shadowy  
walls  
Of the ancient citadel in time of the tolls  
And the wanderers ride to be blessed by His Might  
From the mouth of the Abyss where things have no  
names  
And all creatures 're created of Dark Blood and Flames  
Where the Sky and the Ground are united in one  
And the Eternity once has begun

We are rising  
The Darkest of Names  
Eternal for those who's alive and forbidden for the  
Wretched Ones  
We bring the Revelation of days  
For the Souls going not  
From nowhere to nowhere

Following the Wind Wizard Omin has reached  
The Castle that stands in the Forest Bewitched

By Sonm - the Second Wanderer, He came from the  
Nord  
And now's greeting lord Omin by rising his Sword  
And they rode to the East being quicker than a beast  
In the eerie mountains under shroud of the Frost  
They have met Lord Anth - the Shepherd of Ghosts  
And three demon-like wanderers moved to the valley  
Where every Dark Soul gives the Oath to Unholy

Oh now and forever our choice is made  
We swear by our Hearts and our blood on the Blade  
The Land of the Silent Scarlet Dawn  
Waits for us to be enthroned

I shall lead you to the Magic Forest  
Deep underground in emerald caves  
There is no daylight in there  
And tunes of a flute

Are in grace with Darkness  
There's no time at all...
