Stay...

As the Legend comes true...

Among the virgin snows we are Her silent envoys

We make you dream

About what's happened

Long ago

So long ago...

I've seen you off by a vernal sunrise

To meet again in autumn dusk

And overcome with sudden uneasiness

A fine delight of my throbbing heart

Be standing quiet, blessed with oblivion

Inhaling the freshness of your enchanting cold

And feel this strange severe fondness

You grant me captured to behold

These calm and solemn snowfalls

In which I am drowning, revealing

That the death is no more

Being lost from this Earth

I am yet to be found

Among the stars not known

Before

"I am not the only one,

Who drifts away into the Might of this Night

The decision's yours so will you join me?

We could, if dared, defeat the Height..."

- Please go dance with me

Before I fall asleep,

And teach me one more word of

Your perfect tongue...

As you are the only one

I want to talk to

I wish to talk to

I'd like to talk to...

- You...

No! Wait... I know... I'm doomed to talk to...

Bring the Crown!

Bring the Crown!

For a prince of this Misery

In the glow of the Northern Lights

To become a true king...

And till the end of the time He'll dwell unopposed

Once being beheaded - Forever be Crowned...
I open heart for my eyes to see
The skies are crying turning grey
Today I seem to fail to find the decent cause
That would persuade me to stay
