Did I ever tell you, you're the only one for me  
Did I ever tell you, thank you for setting me free  
If I forgot to tell you all of these things  
Please forgive me, cause you've never forgotten me

With you I'll stand strong  
Right where I belong

CHORUS:

On the golden streets of heaven  
You and I walk hand in hand  
And you'll see me as perfect as you ever were  
And I'll be home again  
I see you working in my life  
I see you standing by my side  
And I know that when I'm quick to fall  
That you never left my side at all

With you I'll stand strong  
Right where I belong

CHORUS

Help me not to speak falsely now  
Help me not to question your ways  
Give to me the life of a newborn son  
And the means to proclaim that you're the only one

CHORUS
