So I can take it to the front line

And sound off a park like an m-16

When I hit the scene, suckas turn green

'cause I take the microphone and then I disrespect it

And then I dissect it,

Put it back together

Lyrics or knuckles man whatever

I had you all for lunch and took a shit

Now all type things that went on this evening

They all say they fresh but I'm here now

Who you believin

Who couldn't hear a hit if you hit up

What a pity, you tried to be quick wit the tongue

Your style is dibbie-dibbie

You need no lyrical rush in your mumblin

Whatchu sayin?

I serve you up like stove top stuffing

Im gonna say this once and I mean this

Disattach yaself from my penis
Give my genitals room to breathe
You take shots at me wit a weak album I cant believe
You got no skills, chill plus your corny
You think your hardcore 'cause you got a 40?
My car is not tint
I don't eat wit a chip
When I read I don't squint
In real life I got the hard shit
You cant out grow me
You don't even know me
I be leavin the jam wit your black ass as a trophy
This is nobodys style but the teacher
So don't compare me to none of these creatures,
features
Feature and battle rappers
Krs one is the head clapper

Chorus
