Forever I wont forget
That my, dreams are still alive
I will show you one day
Your fires haven't scorched me
My veins still run red
Unlike green envious
Go ahead and pull me down

This call to my light
Save me while I'm still breathing
You won't get the rest of me
Never lost
I'm saved for something greater
Your lies, your flaws, your time
Won't take me out of here

For as long as you want to
I'll take your word and follow you
(Take my word, lead me out)
Say you'll go, say you'll go
We'll run past these walls into
The heaven we've always wanted
Our paradise
(We've always wanted, Our paradise)

Run for your life
Your time is up
You don't, get me
I'll die for you (For you) [x2]

Forever I wont forget
That my, dreams are still alive
I will show you one day
Your fires' haven't scorched me
My veins still run red
Unlike green envious
Go ahead and pull me down

And you'll find the rain, crashes down on me
While your protected
You'll find yourself [x4]
(Call this battle one for

Your cause, your war, your self infliction) [x2]
