I got a text saying you would be calling
I got a phone call to prove it was true
I couldn't let you win
It was do or die
You had the last words baby and I'm wondering why

Do you really wanna hurt me baby
I never wanted this to happen
You've been acting crazy
So Haley

From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well
From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well

It was a bonfire waiting to happen
It was a hurricane that pulled us through
So I sat down and figured it out
And found out all about
How things were better the first time

From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well
From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well

I could make up my mind
But I I won't won't
You're here for a week

But you gotta be

From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well

From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well

From the start of
It was the beginning
You know me better than I know myself
And I know myself pretty well
And I know myself pretty well

Oh, do you really wanna hurt me baby
I never wanted this to happen
You've been acting crazy
So Haley, come over
