Its like if the suffering of this world  
runs into my veins  
Broken dreams and wasted lives  
The solitude of a million souls

Poisoning my blood, carved upon my skin  
But when you think that I might care, youre so damn  
wrong

I wish you could live on your flesh  
The pain that Ive been through  
The denial of emotions  
Euthanasia of all sweetness  
Aborted happiness, my heart a shallow grave

Lack of redemption, my only prize  
If only you could see the hell which lies  
behind my eyes

You would  
Love me like youd love the death  
Like if youre loving Death itself

Love me like youd love the death  
Were going six feet under  
Still divided as weve always been

A chronic lack of trust in life  
What else could you expect?  
Everything deserves to be gone  
I chose to run towards the end

Be a martyr or be a hangman  
Two different ways to fail at life  
I know exactly whats wrong for me  
But temptation comes my way

Over and over again  
A tragedy I could foresee  
An omen so predictable  
My self-inflicted punishment

Murdered serenity, my hearts a graveyard

Now Its far too late to make amends  
Fuck me like youd fuck a man that soon will end up  
dead

Love me like youd love the death  
Like if youre loving Death itself

Love me like youd love the death  
Were going six feet under  
Still divided as weve always been

Love me like youd love the death  
Love me like youd love the death  
Love me like youd love the death  
Fuck me like if youre fucking Death itself.
