I can't stand to think about
A heart so big it hurts like hell
Oh my God I gave my best
But for three whole years to end like this

Well do you want to fall apart
I can't stop if you cant start
Do you want to fall apart
I could if you can try to fix what I've undone
Cause I hate what I've become

[chorus]
You know me,
Oh you think you do you, you just dont seem to see
I've been waiting all this time to be
Something I can't define so let's
Cause a scene
Cup our hands and stomp our feet or something
Yeah something
I've just got to get myself over me

I could stand to do without
All the people I have left behind
Whats the point in going around
When it's a straight line baby, a straight line down

So lets make a list of who we need
And its not much, if anything
Lets make a list of who we need
And we'll throw it away cause we dont need anyone
No we dont need anyone

[chorus]
You know me,
Oh you think you do you, you just dont seem to see
I've been waiting all this time to be
Something I can't define so let's
Cause a scene
Cup our hands and stomp our feet or something
Yeah something
I've just got to get myself over me

And I hate what I've become

You know the night life is just not for me
Cause all you really need are a few good friends
I don't want to go out and be on my own
You know they started something I can't stand

You leave for the city, well count me out
'Cause all this time is wasted on
Well -- everything I've done

[chorus]

You know me,
Oh you think you do you, you just dont seem to see
I've been waiting all this time to be
Something I can't define so let's
Cause a scene
Cup our hands and stomp our feet or something
Yeah something
I've just got to get myself over me
