I can't stand to think about
A heart so big it hurts like hell
Oh my God, I gave my best
But for three whole years, it could
End like this?

Well, do you want to fall apart?
I can't stop if you can't start
Do you want to fall apart?
Well, I could if you can't try to fix what I've undone
'Cause I hate what I've become

CHORUS:

You know me
Or you think you do,
You just don't seem to see
I've been waiting all this time to be
Something I can't define, so let's cause a scene
Clap our hands and stomp our feet
Or something, yeah, something,
I just got to get myself over me

I could stand to do without
All the people I had left behind
What's the point in going round
When it's a straight line baby
A straight line down

So let's make a list of who we need
And it's not much, if anything
Let's make a list of who we need,
And we'll throw it away 'cause we don't need anyone
No, we don't need anyone

CHORUS

And I hate what I've become

BRIDGE:

You know the night life is just not for me
'Cause all you really need are a few good friends
I don't want to go out and be on my own

You know they started something I can't stand
You leave for the city,
Well, count me out
'Cause all this time is wasted on
Everything I've done

CHORUS x2
Over me, yeah
Over me
