Under the open sky or wool of clouds above  
I see white egrets weary not thereof  
So  
Much so more so  
Enchanted  
Enchanted soul

Melt into the silence eluding me still  
Is it just a dream? I will not--or will  
So  
Much so more so  
Enchanted  
Enchanted soul

A silver shadow that others fail to see  
The tremble of your lip forever tempting me  
So  
So  
Much so more so  
Enchanted  
Enchanted soul  
Enchanted soul  
Much so more so  
Enchanted soul  
Much so more so  
Enchanted soul  
Much so more so  
Enchanted soul
