Evidence:

(Punch in)

I punch in this Club Elaine

Punch out just pissed in Hurricane

When this is done things will never be the same

Peace to mega trend setters along I'm never taggin'

Word Tameer and ah year of the Dragon

In '76 born bomb lyricist

Ever since I stun the mic and drums I keep 'em crisp

>From that events which occur in dense fog

Accumulates clouds monsoons and thick smog

By the way this is protected by the green that I'm

smokin'

With the key to unlock your mind I get it open

Ajar mad far I kick you out the drivers listen

Dilated Peoples place in po position

While suckers steady fishin'

I got that big catch

Lead you to the trap door switch on the latch

My name is Evidence and my mic a strike on any match

(in fact)

After this track we'll have 'em stuck like tacks

Hook:

It's the one two three MCs

Now it's our turn to burn and blaze for always (X2)

Defari:

I keeps it rough and rugged rugged and rough

A lot of kids think they hard oh my God I call they bluff

And pull they cards like the king of hearts

A lot of these cats act well enough to play the parts

But I see through that's why I stay true

And keep it real

Rhymes worth more than eighty mil

I blaze records like a circle on magnify

Precise laser beam lyrics (who you?) Heru Defari

Oh me oh my these botty bwoys gon have ta die

They can run and hide but Allah know every Sodomite

That's why righteousness prevails through every verse

Me have to ? down Babylon and live free of curse

Or free of evil strictly rough rhymes fro the People  
Dilated together we bond like seamen  
We breathin' with Reggie White style defense  
Raise you hand if you're tired of the rapper man who  
don't make sense  
Lyrics of gold rhymes are worth more than bill folds  
All you wack MCs give back them styles that you stole  
You owe  
Your dues are questionable  
You're a longtime criminal there's a hit out on you

Hook (x4)

Iriscience:

I create to devastate  
Deep space blast off  
Make you salivate like pets of Pavlov  
Lines like bar codes but no mark of the beast  
Givin' peace to pioneers of the parks in the east  
From LA at it's finest the name is Iriscience  
Or Mr. Iristyle I hold material like Linus  
David to Goliath is me to the mindless  
I hope I haven't been chipped so satellites can't find it  
Big up to Iodine I try to get in touch  
Big Up to Defari for comin' through in the clutch  
Lyrically, I pick 'em apart like Coleef  
Prophecy of Garvy manifest Salacee  
Concoring lion 225th in the line  
So I choose to entertain AND uplift the mind  
Dilated never wack crew  
Ready set and tatoo  
Understand that rocker don't Throw Stone I throw  
statues
