It feels like youve been asleep for days the television is
on, i cant stay awake ill fall down, again and when your
friends

Leave, oh they get gone its such a pet peeve when you
prove me wrong ill fall down and we all fall down i need
to get back

To tempe, its been two years since ive been here
before back down to the streets that lead me the ones
that keep me, away

From glendale o-o-open your eyes and let me in i swore
to god id never swear again and we all fall down yeah
we all fall
Down again
