I can't stand to think about  
a heart so big it hurts like hell  
Oh my God I gave my best,  
but for three whole years  
to end like this  
Well, do you want to fall apart?  
I can't stop if you can't start  
Do you want to fall apart?  
Well, I could,  
if you can,  
try to fix what I've undone  
'Cause I hate what I've become

You know me  
Oh, you think you do  
You just don't seem to see  
I've been waiting all this time to be  
something I can't define  
So let's cause a scene  
clap our hands and stomp our feet or something,  
yeah, something,  
I've just got to get myself over me

I could stand to do without  
all the people I have left behind  
What's the point in going around  
when it's a straight line,  
baby, a straight line down?  
So let's make a list of who we need  
It's not much, if anything  
Let's make a list of who we need  
and we'll throw it away  
'Cause we don't need anyone  
No, we don't need anyone

You know me  
Oh, you think you do  
You just don't seem to see  
I've been waiting all this time to be  
something I can't define  
So let's cause a scene

clap our hands and stomp our feet or something,  
yeah, something,  
I've just got to get myself over me

And I hate what I've become.

You know the night life is just not for me  
'Cause all you really need are a few good friends  
Don't wanna go out and be on my own,  
You know they started something I can't stand  
You leave for the city,  
Well, count me out  
'Cause all this time is wasted on everything I've done

You know me  
Oh, you think you do  
You just don't seem to see  
I've been waiting all this time to be  
something I can't define  
So let's cause a scene  
clap our hands and stomp our feet or something,  
yeah, something,  
I've just got to get myself over me

You know me  
Oh, you think you do  
You just don't seem to see  
I've been waiting all this time to be  
something I can't define  
So let's cause a scene  
clap our hands and stomp our feet or something,  
yeah, something,  
I've just got to get myself over me

Yeah  
Over me  
Yeah  
Over me
