Only time will tell the reason that we fell i wanted to be
free so please just let me be when i close my eyes to
think of all the lie i look back on to time and hope to say
goodbye there is a better way we'll take it day by day
one moment in to time i hope we will survive

chorus:step by step im takin it in,step by step im takin it
in,oh oh oh oh oh rpt 5x
i reach a higher ground above i almost fell i gotta live
the life gotta make it right not just mess around come
and sit with me and stay with me i dont know wat its all
about i wanna be free there is a better way we'll take it
day by day one moment in to time i hope we will survive

chorus
