Come with me
Let me walk in through the world that I currently stay in
You can take a look around and tell me if I'm mistaken
You can even talk to everybody that I live with
Maybe you could tell me why everybody's so distant

Is it me or maybe when I look around daily
I don't even know the people I can put my trust in lately
People that I used to hang with now their actin' to
different
I'm still the same person why doesn't anybody listen

Can somebody please just explain to me
What happened to the way that we always said we'd be
Right now I dunno why I push through the pain
That I got through and I'm losin' hope

Deafening voices
That frequency inside my head that says
I'm going at it the hard way I focus
Get everything inside out of my brain that claims
I'm going at it the hard way

Come with me
Let me walk in through the world that I currently live in
Not a thing is forgotten, not a thing is forgiven
Nobody can hold their own underneath the weight but
Nobody can take the blame for their own mistakes so

What do you do when somebody lets you down
And you wanna say something but you can't cause their
not around
Inside you think they know the extent of the pain
But they won't even admit that they were the one to
blame

Can somebody please just explain to me
What happened to the way that we always said we'd be
'Cause right now I dunno why I push through the pain
That I got through and I'm losin' hope

Deafening voices

That frequency inside my head that says
I'm going at it the hard way I focus
Get everything inside out of my brain that claims
I'm going at it the hard way

Voices in my head

Can somebody please just explain to me
What happened to the way that we always said we'd be
Right now I dunno why I push through the pain that I got
through
And I'm losin' hope, give me one reason not to

Deafening voices
That frequency inside my head that says
I'm going at it the hard way I focus
Get everything inside out of my brain that claims
I'm going at it the hard way
