IN STEREO

“That beat is hott”

This is how it goes,  
Welcome one and all to the show.  
We're wired up, fired up  
Fucking ready to go.  
In the back of the parking lot,  
Outsida of da bar,  
20 deep, 20 feet  
From the boulevard.  
Black hoodies, black caps  
Black label and glasses  
Previewing the new shit before all the masses.  
'cause the first thing I need when I got a new beat,  
Is to see how it sounds echoing off the street.  
I just take it for a spin,  
Pop the CD in,  
Slide it up to ten and get that rear view shaking then,  
Play it again so there's no mistakin',  
San Andreas, the block, get this bitch earthquaking.  
Like ohhhh!  
Ready for it here we go,  
We got the whole block rocking in stereo.  
Taking control, letting everybody know  
And if you feel it lemme hear everybody go  
Ohhhh!  
You're not ready  
I got plenty cuts for twenty months drop steadily.  
Plenty tracks to empty on your whack pedigree  
I'm backed heavily while your back peddling.  
Forget the chit chat, homey homey kick back  
I'm that shit that can get your homey bitch slapped.  
So zip your lip back  
Listen and watch we got the whole block rockin  
Off the way the beat knocks  
You don't have to warn the people on the corner they  
know  
That if they're standing on that corner  
Then you're getting that show  
World premiering

You're hearing  
That machine shop flow  
San Andreas, the block, get this bitch earthquaking  
Like ohhhh!

Turn the volume up to loud  
Roll right roll every window down
