This golden ring's gonna buy me  
A place in my baby's heart  
This golden ring's gonna make  
Quite sure that we never part

It's so funny what a ring can do  
Make a girl just like you  
Take a ride downtown  
Searching for a wedding gown  
So I got a ring for my baby  
And I think that very soon that maybe  
That girl will be mine  
Gonna have an angel divine  
And everything is gonna be fine, so fine

This golden ring is all I have  
To give to you  
But given time and love  
I'll make your dreams come true

I've been a-sitting on my money  
I've been a-working hard girl  
Only with you on my mind  
We got more than money  
We got a love that's gonna last us

It's so funny what a ring can do  
Make a girl just like you  
Take a ride downtown  
Searching for a wedding gown  
So I got a ring for my baby  
And I think that very soon that maybe  
That girl will be mine  
Gonna have an angel divine  
And everything is gonna be fine, so fine  
Fine...
