I remember when we fell,
it took my whole life my breath away.
I remember when we kissed
as you drift into the sun
(drift into the sun)

So take a ride now, you take a fall
and your weights so shallow
wait for me
before you take it all away

Far away it's not like
I wanted to.
Far away it's not like
I could breathe anymore
Far away it's not like
I wanted you
but you're not for me
not for me anymore

I remember when we met
it took your whole life your breath away
I remember when we kissed
as you drift into the sun
(drift into the sun)

So take a ride now, you take a fall
and your weights so shallow
Wait for me
before you take it all away

Far away it's not like

I wanted to.
Far away it's not like
I could breathe anymore
Far away it's not like
I wanted you
but you're not for me
not for me anymore

Not for me.

You're not for me.
Not for me.
Not for me.

Far away it's not like
I wanted to.
Far away it's not like
I could breathe anymore
Far away it's not like
I wanted you
but you're not for me
not for me anymore

Not for me
You're not for me.
Not for me.
Not for me
