

Forty Foot Echo "Save Me"

Visit "[Save Me](#)" on MotoLyrics.com

Sit around and loose myself, again
Never thought I'd wait to realize
That I can't hold on to what you see
And I can't move when you're down on your scene

A mistake, it's all I remember
Trying to hold on to all of my ways

So save me in my life, just hold on
How could you realize
Ya save me in my life, just hold on
Got to realize, goodbye

Sit around and find myself, again
Never thought I'd wait to justify
I cant hold onto what you see
And I cant move when you're down on your scene

So save me in my life, just hold on
How could you realize
Ya save me in my life, just hold on
Got to realize, goodbye
Goodbye, goodbye

So save me, so save me in my life, just hold on
How could you realize
Ya save me in my life, just hold on
How could you realize, tell me
You barely realize, oh
How could you realize
Just, just hold on
