Every now and then, the weather's fine  
the sun shines, and i'm alright

every now and then, my feet hurt  
i'm itchin' all over, my heart aches

but when im in trouble  
my heart is screamin loud, your name  
when you're around  
everything's no more the same

you act as if i were the one, you're lookin for  
you're the one that i adore, hug me

the sky is blue, my dream comes true  
when i'm with you

come on, grasp me, kick me, now caress me  
lick me, there's nothing i wouldn't do, for you
