I know a girl who should never be alone (Ahhh ahhh
ahhh)

I know a girl who should never be alone (Ahhh ahhh
ahhh)

She's a danger to herself
And I'm worried about her health
She's got a problem
And she's gonna do something dumb

I know a girl who you've got to keep an eye on (Ahhh
ahhh ahhh)

I know a girl who you've got to keep an eye on (Ahhh
ahhh ahhh)

Every time she goes outside
She barely gets home alive

She's got a problem
And she's gonna do something dumb

Oh yeah (oh yeah)
And I can see the signs
Oh yeah (oh yeah)
Cause she's only killing time
Oh yeah (oh yeah)
And she's not long for this world

She's a danger to herself
And I'm worried about her health
She's got a problem
And she's gonna do something dumb
She's got a problem
And she's gonna do something dumb
