### "Too Cool For School"

Visit "[Too Cool For School](#)" on MotoLyrics.com

He walks alone under the big city lights  
He always knows just when the time is right  
He never shows what he's thinking he keeps it inside  
Because he's too cool for school  
He comes alive when the sun goes down  
He gets it right you know he's always down  
He keeps one eye open and his ear to the ground  
And he's too cool for school

He's an operator  
He's a real player  
And if you mess with him  
You know you'll never win  
He's an instigator  
Enemy eliminator  
And when he knocks you better  
You better let him in

He's got his own way of getting things done  
He's always looking out for number one  
Don't try to beat him cause he's already won  
And he's too cool for school
