We had a stormy weather  
We has a sunshine too  
We shared them both together  
And I'm still here with you

Sometimes you make me happy  
Sometimes you make me blue  
But love kept us together  
And I'm still here with you

No other arms  
No other lips  
No other love beside you  
No other stars above will shine  
To guide you

Someday you'll go to heaven  
As all good angels too  
I'll find my way to heaven  
And I'll be there with you

No other arms  
No other lips  
No other love beside you  
No other stars above will shine  
To guide you
