No more crying for yesterday
Say good-bye...
Getting over the tragedy, I'm alive
Something's changed
You better believe it, I'm all right
Finally found a reason for being
I just wanna play in the sunshine
I just wanna go have a good time
I just wanna be with you tonight
I just wanna fly through the clouds &
I just wanna sing this real loud &
I just wanna feel like this forever
I just wanna be honest with you
I just wanna big hug & kiss you
I just wanna share my point of view
I'm a brand new man
I just wanna swim in the ocean

I just wanna run in slo-motion
I just wanna keep myself alive
I just wanna be thankful for you
I just wanna love & adore you
I just wanna live eternally
I just wanna know God, he made me
I just wanna be strong & healthy
I just wanna be that kind of man
I'm a brand new man.
Outside it's raining, my mind is in a blur
Anger and frustration was all there were
I hear you talking
And pushing me around
Won't take anymore of this putting down.
