

Four And Twenty Elders "Diamonds"

Danger all around me
Now I must decide
What gets in my ears & in my eyes
Sifting through the sand for diamonds
I wanna be rich again
If you seek then you will find them
I wanna be whole again
Some is better had than nothing
You will find
I'm not sure, I can't make up my mind
I guess I will wait 'til something
Better comes along

Hurry up and get here before
What I've got is gone.
I want to love not hate you
Don't want to be
Don't want to let you make a
Fool of me
Now I'm out here, lonely
Away alone
Looking for a house
That I can call my home.
Danger all around me now
I must decide...
