i saw u from afar
standin by the car
i watched u
i realized we were kinda alike
the way u dress the way u chill

oh yeah
and i felt a little crazy u know
cause i could have spilled my guts to u
so soon
but boy ohhhh ahhhh i want u yes i do

man this is so strange
im feelin somewhat drained
take my mind away
then clean up from yesterday
and just move on

oh yeah, im gonna move on

so i proceeded to ask what u were up to that night, yes i
did
and i was struck down by "i like u"
when i found out u had another love
i let my heart go too soon
so please dont let it happen to u

man this is so strange
im feelin somewhat drained
take my mind away
then clean up from yesterday
and just move on

i never look back

don't expect a second chance
but oh you're killin me in your b-boy stance
temptation it's just a word to me
ya don't give in to the absurdity
I'm wanting something
I can never have
I'd rather paint my nails

Or draw myself a honey bath
Oh, what do ya know
Look who's calling me now that I'm moving on

man this is so strange
im feelin somewhat drained
take my mind away
then clean up from yesterday
and just move on

man this is so strange
im feelin somewhat drained
take my mind away
then clean up this mess I've made
and just move on, oh yeah

Move on, push on, dream on, scheme on, live on, give
on
Oh yeah

I'm gonna
Move on, push on, dream on, scheme on, live on, give
on
