Open me up  
This is just how I imagined it would feel  
The weight on my shoulders  
Pulls me deeper in, deeper into the ground  
Honestly did you really think we'd make it out of here  
alive?  
Are we living?  
What's inside?  
Is this the best that you can do?

Come show me life  
I've been here sleeping

This is eating me alive  
I can't forgive myself  
Bring me back to the ground  
Would it kill you to be by my side?

This is my flag  
I am surrendering  
This is me without you

Any more obvious and I'd be left for dead  
So what is there left to say?

And to what do I owe this perfect occasion?  
Must have been out of your mind  
(Some say straight out of line)  
And I believe there's courage out there  
Courage out there

Open me up  
This is just how I imagined it would be  
The weight on my shoulders  
Pulls me deeper in, deeper into the ground

With my eyes to the sky  
And I'm feeling lost  
Who am I living for?  
With my head in the clouds  
And I'm feeling low

What am I living for?

And to what do I owe this perfect occasion?

Must have been out of your mind

(Some say straight out of line)

And I believe there's courage out there

Courage out there

Come show me life

I've been here sleeping [x2]

Open my eyes

All of this time I've been wasting

Come show me life

I've been here sleeping

Open my eyes

All of this time I've been wasting

With my eyes to the sky

Who am I living for? [x2]
