You're playing the victim  
Any man in my shoes would say the same  
That's why you have to change  
With God as my witness  
I'm making promises  
This won't be the last time

I'll never be the same  
I will beg and plead to never see you gasp your dying  
breath  
I'm glad it's over

I can feel you digging up my bones, just let me rest  
I think we failed lying to ourselves, we can pretend  
We'll find no remorse in an explanation

Where have you been I've been up all night  
I'm taking hold of this lifeless affair  
I can't be blamed for giving up on you  
Because now there's someone who's taking my place  
It's been too long to stay on the ground  
Moving on, moving on, moving on, moving on

It's such a simple solution  
An end to this misery  
I'll enjoy every second of you on your knees  
You said you were with me, but where are you now?  
Where are you?  
Where are you?  
Where are you now?

I can feel you digging up my bones, just let me rest  
I think we failed lying to ourselves, we can pretend  
In an instant everything we love is gone

There are no windows; I've boarded the doors  
You're finally getting all that you deserve  
If you're looking for her go dig her up  
If you're looking for her go dig her up

I can feel you digging up my bones, just let me rest  
I think we failed lying to ourselves, we can pretend
