I shudder when I see you ashamed
How many times have you been blamed
I'm tired of how they treat you
I'm tired of what they do to you
And I'm not gonna let them anymore
Marlene
Marlene
See these doors
Open wide
Turn off those voices in you head
Cover your wrists, I know they've bled
I'm tired of all the teasing
I'm tired of what they say to you
And I won't let you feel this anymore
Marlene
Come with me
Marlene
Come on
Marlene
Come with me
Won't you step inside
Into a world that's far away
We're gonna leave this all behind
Come on and run with me
Forever
Marlene
Come with me
Marlene
Come on
Marlene
Come with me
