Love

A difficult thing to say

Don't let it go to waste

I feel so close to you

I'll be your confidence and now I'm satisfied

So let me hear just what this means to you

My dear I fear some disbelief

Love as loudly as you dare to

Give up your love and honesty

And I've got all I need

Keep me safe and keep me quiet til' morning comes

Give me the strength to do what I have come to do

I think it's better if were alone

If were alone

You're the one that's getting me through

I think I can get use to this

So close your eyes and I'll close mine too

We'll let this candle burn out

We'll let our hearts scream aloud

Your presence brings satisfaction to life

And I just can't believe

Keep me safe and keep me quiet til' morning comes

(Quiet til' morning comes)

I am ready for you with love unconditional

I never did say how much this hurts

You're making these words seem more than real

It pulls me through

It pulls you through

And I just can't believe

Keep me safe and keep me quiet til' morning comes

(Quiet til' morning comes)

I am ready for you with love unconditional  
(I've got my arms wide open)  
Keep me safe and keep me quiet til' morning comes  
(Quiet til' morning comes)
