"Tied Up"

Put these chains over me
Make me feel i'm alive
I want to feel your faith
But you're never on my side
I want to feel you're faith explain
That i've never tried
I don't care for change
Other worlds won't explain

Tied again

See these cars on the road
All these cars overturned
I want to see your faith
But you're never on my side
I want to see you're face explain
That i've never tried

I don't care for change
Other worlds other days

Tied again

When i see them tied again
When i see them lie

I never wanted
I don't care
I never wanted change
I never wanted
I don't care
I never wanted

Tied again
