Girl come running
Girl come running
Girl come running home

When you get tired of running around (runnin' around,
all over town) All
of your friends putting you down (puttin' you down, all
over town) Don't
do your crying alone (all alone) Well baby....girl come
running
home

Some day you'll be feelin' so low (lower than low,
nowhere to go) Why don't you call on me girl, that's
when I'll show (I
love you so, I love you so) Don't do your crying alone
(all alone) Hey baby.....Girl come running home

Was it so bad girl?
Just think of what we had
I need you so-o-o (come on baby, come on baby)
Don't ever go-o-o (come on baby, come on baby)

You're gonna get lost feelin' so blue (bluer than blue,
baby it's
true) And don't you forget that I'm feelin it too (bluer
than blue,
baby it's true) Well don't do your crying alone (all
alone)
Whoa baby.....Girl come running
Girl come running
Girl come running home

Come on baby, Come on baby, Come on baby, Come on
baby
Come on baby, Come on baby, Come on baby, Come on
baby
