Don'Â't make a sound, it'Â's time to throw it into lock  
down

Watch me knock down this mess  
That I'Â've got myself into for a small commission  
I'Â'll show you how

If you just get off the ground  
You'Â've got to move a little faster  
To make it out of this disaster  
Before you get factored out

Turn the page, another line I should have saved  
But who'Â's to say that you wouldn'Â't be blown away  
'Cause you've always been blown away

Anchor, come and drag me down, before I take the  
dive  
(I'Â'll take what I can get)  
Leave me for dead, I always said you'Â'd find me in  
over my head  
Now you can take it literal instead  
I'Â'm bringing it back  
(I'Â'll take what I can get)  
Anchor, drag me down before I take the dive

Call off the search, there'Â's been no sign for and days  
And there'Â's no way to say for sure if less is more  
I'Â'm sweating out the fever that'Â's been spreading  
on the dance floor

Pick your feet up on the ground  
You got to move a little faster  
Faster to make it out of this disaster  
Will you last or will you fall to your knees

Turn the page, another line I should have saved  
But who'Â's to say that you wouldn'Â't be blown away  
'Cause you wouldn'Â't be blown away

Anchor, come and drag me down, before I take the  
dive  
(I'Â'll take what I can get)

Leave me for dead, I always said you'd find me in  
over my head  
Now you can take it literal instead  
I'm bringing it back  
(I'll take what I can get)  
Anchor, drag me down before I take the dive

At first with all the weight of all this pressure I was fine  
But now I feel like I have buried myself alive

Drag me out and push me down  
But hurry up before the surface freezes over now  
I'm going to drown  
I'm going down without a sound

Anchor, come and drag me down  
Anchor, come and drag me down  
Anchor, come and drag me down  
Anchor, come and drag me down  
Before I take the dive

Anchor, come and drag me down before I take the dive  
(I'll take what I can get)  
Leave me for dead, I always said you'd find me in  
over my head  
Now you can take it literal instead  
I'm bringing it back  
(I'll take what I can get)  
Anchor, drag me down before I take the dive

Before I take the dive  
(I'll take what I can get)  
Anchor, drag me down before I take the dive
