Oh, something tells me  
I'm never gone live this one down  
But I'll try  
I'm gonna need a quick hand,  
A sharp eye, a smooth talker  
Just to play this one out to the very end.

And this is where you come in  
I know, that I could count on you to walk me through  
And I'm making sure that anyone whos anyone  
Can be the someone that they've always wanted to.

If I couldn't get away with anything  
Then how in the hell did I get here  
Say something. Say something. Say anything.  
You were never the one to have something to say.  
Say something. say something. say anything.

I've seen the best and worst of you  
But we're sticking through  
Because without all of the ups and downs  
We've been through  
You know that its true  
That I could really get sick and tired of you.

Oh, something tells me  
I'm never gonna live this one down  
But I'm down and out  
Cause if the tensions light as a feather  
Then I'd be bored stiff  
We gotta mix things up a bit to keep up my interest

Sad enough to say that  
Alone I could barely light a match  
But together we can burn this place down.

Sorry about the mess  
But when we team up  
We always seem to bring this place to the ground

And this is where you come in

I know, that I could count on you to walk me through  
And I'm making sure that anyone whos anyone  
Can be the someone that they've always wanted to.

I've seen the best and worst of you  
But we're sticking through  
Because without all of the ups and downs  
We've been through  
You know that its true  
That I could really get sick and tired of you. (x2)

Sad enough to say that  
Alone I could barely light a match  
But together we can burn this place down. (x5)

Sorry about the mess  
But when we team up  
We always seem to bring this place to the ground

I've seen the best and worst of you  
But we're sticking through  
Because without all of the ups and downs  
We've been through  
You know that its true  
That I could really get sick and tired of you. (x2)
