Keep it up like you even know how to stop
Call me up if you think that you've had enough
I'll show you two ways to bleed
If you just show me your teeth
Under those famous lips of yours

Now show me what you're working with (no that is a
secret)
Dance your way from bed to bed
And try not to make it so obvious
You always make it so obvious

I'm finding that all of the things that you've thrown
away
Have found their way to my door
You're like a fever I can't get over, I can't get over the
way
All of the things that you've thrown away
Have found their way to my door
You're like a fever I can't get over, I can't get over it
And I'm beating myself up over this

Are you ready for some good news?
I had you two made from the start
You thought you wouldn't get caught
It'll be my time to shine
The next time the clock strikes one, two, three, four
On the bell until then I'll see you in...

Hell!
See you in hell!

Now show me what you're working with (no that is a
secret)
Dance your way from bed to bed
And try not to make it so obvious
You always make it so obvious.

I'm finding that all of the things that you've thrown
away
Have found their way to my door
You're like a fever I can't get over, I can't get over the

way
All of the things that you've thrown away
Have found their way to my door
You're like a fever I can't get over, I can't get over it
And I'm beating myself up over this (and I'm beating
myself up over this, and I'm beating myself up over
this)
You're like a fever I can't get over, I can't get over it
And I'm beating myself up over this.
