Shes got mystery there's secrets in her eyes  
Shes my soul satisfier she change my state of mind  
Sometimes my spirit feels so strong  
For me there is no doubt  
Sometimes i feel so insecure  
That's when she pulls me out  
To free my frozen heart  
Free my frozen heart  
(chorus)  
What a rush she's rocking me slow  
My girl she moves me like smoke  
Cant live without you baby  
Oh she's getting me red she's giving me hope

My girl she's mystic like smoke  
Cant live without you baby  
Inna this crazy world  
Shes an island in the sky  
She give me shelter give me shelter  
When there aint no place to hide  
She melt me like the candle wax too close to the fire  
Then all my worries disappear in the flames of her  
desire  
To heal my broken heart  
Heal my broken heart  
(chorus)
