Conception of life, beginning of the way  
Aspiration for perfection's laid into us  
All the living strive for light  
Though darkness comes nearer  
A short joy of existence, fate's ruthless  
Blood carries life, life passes with blood  
Pain changes pleasure - for ever  
Death dictates it's will and all follow it  
Life's an agonizing way to death  
The living's destined to it  
Worthless fussing, little joys  
All will come to dust!  
Nothing's eternal  
All is coming round back  
Death is everywhere  
Feeling of inevitability...  
Sun sets dawn  
Dark is spreading  
Wind of sorrow  
Life comes to a standstill  
Lightning blaze  
Omen of fear  
No way out!  
Power of evil!
