You're born and doomed to suffering, don'tcha know it
A smell of rottenness around, don'tcha feel it
You're on the way to nowhere and nobody cares about
you
Look, your soul is getting fucking rusty!
Life is a mere sacrifice,
Feelings brings only pain,
Music is the requiem,
Decay's up awaken, the futures shadow's shade!
No time to come,
Just lies and crime,
Degenerating personality,
In an endless maze of vice...
Hey, man, dye like your destiny?
You're doomed, you're weak, you're forced to suicide
Trying to break the net of god-damned fright
You kill yourself with drugs but reality comes back
again:
Faith in escape brings about pain
Your flesh and spirits are in merciless fight
One can not overcome a sound mind
Hey, fellow, you're sunnin astray!
This world's rolling down to chaos with you
Society made you indifferent to all around you
You're become a part of the evil horde
Help me - whispers your heart but you never heard!
... Decay's up awaken, escape's just death!
