(Shake it, shake it)

God you shake it so low
Do it for me go slow
Take me to the tan line
Baby looking so fine

Do you like it when I take it?
You know I'm not the one to make it
I think I'm really gonna need this
Honey you're not gonna believe this

Cause you shake it
Shake it and you slow it right down
Won't you please tell me baby
What's your password now?
Gonna take it
Take it till you show me how
I'm getting hot for you baby
What's your password now?

Breathing really hard now
My pump is beating cause you know how
You know I like it when you come round
I just can't fight it when you slow down

I think I'm really gonna need this
Honey you're not gonna believe this

Cause you shake it
Shake it and you slow it right down
Won't you please tell me baby
What's your password now?
Gonna take it
Take it till you show me how
I'm getting hot for you baby
What's your password now?
Username type in K-Blitz
Password easy, I'm the s**t
Tell her that she licks her lips
We hit the crib, she on my dick
Calm it down, this here's PG

Not when she's alone with me
Doing things she's never seen
It's rated R, yes our movie
So don't play hard I know you wanna
Roll with me smoke marijuana
It's human nature ask Madonna
Steam the windows like a sauna
We get hot and bothered
If daddy just seen his daughter
We gonna keep it all night long
And yes I passed her firewall

Cause you shake it
Shake it and you slow it right down
Won't you please tell me baby
What's your password now?
Gonna take it
Take it till you show me how
I'm getting hot for you baby
What's your password now?

Cause you shake it
Shake it and you slow it right down
Won't you please tell me baby
What's your password now?
Gonna take it
Take it till you show me how
I'm getting hot for you baby
What's your password now?
