Watch out for your baby, watch out for her now  
She ain't no lady, she's a stupid cow  
She wears the trousers  
She's got a tongue that stings,  
I know that woman  
She's gonna do you in.

She's high and mighty, she wears a crown of steel  
She'll dominate you, she's got that special feel  
She'll make you shiver  
She'll make you reel and spin  
I know that woman  
She's gonna do you in.

Don't tell her lies, she's gonna find you out.  
You love to whisper, you know she loves to shout.  
Don't talk back to her  
'Cause that's a mortal sin  
I know that woman  
She's gonna do you in.
