I open my eyes

I'm lost for a moment

Wonder of leaving

Light on your face

I'm glancing below us

Rhythm and dreaming

Bright and bewildered

Walk in with the new day

Fusion/Fission

Fusion/Fission

I open my heart

I'm lost for a moment

Vanish with someone

Turning to say:

"Oh these are the days now

When seasons will change us."

I feel you unfolding

So glad in this blaze

Fusion/Fission

Fusion/Fission
