"My Wild Love"

Visit "[My Wild Love](#)" on MotoLyrics.com

my wild love is a love that goes deeper each day
my wild dream is a dream of the sea
my whole life, I feel is turning away
from the man I thought I would be
for my wild love, my wild love....
walking, I've been walking
as the moon rose on the waves
remembering how things used to be
before everything was changed

I see your face in stained glass windows
I touch your heart, it's the heart of the sea
you come to meet me through millions of sunsets
no-one else would ever believe in my wild love
my wild love.....
