On the plaza  
We're dancing slowly lit like photographs  
Across the plaza  
Toward the shadow of the cenotaph  
Chorus:  
Down escalators, come to the sea view  
Behind the smoked glass no-one sees you  
A familiar figure comes to meet you  
I remember your face from some shattered windscreen  
Across the plaza  
A giant hoarding of Italian cars  
Across the plaza

The lounge is occupied by seminars  
(Chorus)  
From the plaza  
The highways curve in over reservoirs  
On the plaza  
A queue is forming for the cinemas  
(Chorus)  
On the plaza (Repeat and fade)
