Put your makeup on try to fantasize  
It's time to get a little crazy  
Sometimes is good to try it out  
Just like the dreams in your head  
When the heat is on everybody knows  
They're in the mood to be a hot number  
Some dirty talks a mega shock  
To get a zing in your fling

Midnight rides and dances

Chorus  
Everybody wants them  
Come and fill my wonders  
Oh, oh, oh, hot number

If your hips got rhythm you're beyond control  
You've always been a little hot number  
Some would be hots afraid to show  
Don't you know you like to let it go  
Take me if you want  
You should try it once  
Aint nothin wrong with getting sexy  
A love a days the way to stay  
I want to be a hot number

Chorus

We want to tear you apart  
We want to get in your heart  
Were hot numbers yeah  
You got that look in your eyes  
We want to get in your heart  
Were hot numbers yeah  
You're out numbered ooh  
Were hot numbers yeah  
You're out numbered ooh
