

## Foxy Brown

### "Ghost Animals"

Visit "[Ghost Animals](#)" on MotoLyrics.com

There I was face to face with a grizzly bear  
In my motel room, I've almost died before  
I'd gladly do it again, I just can't be beat  
They took my arms and threw them over there  
And they took my legs and threw them over there  
Pop your booty till you get some heat and friction  
Make some history that nobody be forgettin'  
It's life or death, you gotta make those consequences  
Ghost animals  
When I think my time is up I come back around  
I died last night, but I'm here today  
Can you explain that my friend?  
Yes I can, it means that you are a ghost my friend
