And when you try
You'll catch my vibe
I'll blast a million moons away
I'll blow a million minds a day.

God bless you, child
You put me right back down aside
I'll blast a million moons away
I'll blow a million minds a day.

Five, four, three, two, one
Blast off.

You're a pretty little dog
You're so pretty in your own special way
The way you make me move
The way you make me groove
The way you make me dance.

I wouldn't lie to you
I wouldn't lie to you.

Rocketeer
You got a lot of learning to do
Soon you'll find yourself.

Take off your mask, Rocketeer
I want to see who I'm dealing with here
En garde (en garde) en garde (en garde)
