Feel the burn
Do the feelings you have keep you burnt
Has the feeling you've made help you down
Violation, salutation, complication
Realization, indecision, clears my vision
I'd like to take it all and shove it back in your face
My screaming yeah, feeling this way for too long
My dreaming yeah, feeling this way for too long
Feel the burn, feel the burn, feel the burn
All the dreams that you have not aroused
As the ladder you've climbed, falls down
Selfish reasons, change of seasons, trust no other
Cheat another, sound of violence, hymn of silence
I'd like to take it all and shove it back in your face
My screaming yea, feeling this way for too long
My dreaming yea, feeling this way for too long
Feel the burn, feel the burn, feel the burn
Do the feelings you have keep you burnt
As the ladder you've climbed, falls down
My screaming yeah, feeling this way for too long
My dreaming yeah, feeling this way for too long
Feel the burn, feel the burn, feel the burn
