Too late baby
No place left to go
Too late baby
No no no

When we were young I played the cowboy
And you were my beauty queen
I loved you then, I love you now baby
But this time it's the real thing

But there's a way about you that just turns me on
Yeah there's a way about you that just keeps me going

But now it's too late baby
There's no place left to go
I said it's too late baby
No, no, no
No, no, no

The story's over, the curtain's closing
We take our final bow
Once the hottest ticket around
The seats are all empty now

There's still a way about you that just turns me on
Yeah there's a way about you that just keeps me going

Well it's too late baby
There's no place left to go
I said it's too late baby
No, no, no
No, no, no

Well it's too late baby
There's no place left to go
I said it's too late baby
No, no, no
