Did you fall on your way
I hope you know it now
Its a long way down
Welcome back to your place
Cause it's true what you say
Were the wrong way round
And the lie that cut the worse

Has been resolved, then reversed

Finally..

Where are you running now.
Ah come on.. show the way
Is it lack of restraint
And in the end, were both the same
Has you turning round.

You played your part, so your part to blame

When you want something that much,
It's drawing trouble on your life
And when you found something that good
Its hard to focus on what's right
Has been resolved and the reversed
And I know it's not what you said

And in the end what hurt the worst
Its like the letter I just sat and read
Finally..

Its drawing trouble on your life

You found something so good
Its hard to focus on what's right
And when you lost something so good

I love it so far..
