People all get ready
As we're tearing down the stand
___ all that's gone and steady
See it through with newer/wiser hands
And what has gone before/between us
Is a lot, is a lot
And who'll be there to clean/hold us
If you're not, if you're not/And maybe not, and maybe
not

We have all the time in the world
To get it right, to get it right
We have all the time in the world
To set it right, to set it right

People all get ready, ___
Rebuild what's gone ___
See it through with wiser hands
And what has gone before us
And who'll be there to clean us

And we have all the time in the world
To get it right, to get it right
And we have all the love in the world
To set alight, to set alight

People all get ready
As we're burning down the ___nd

People all get ready
'Cause we're coming to a stop
